Exhibitor testimonial: “I had to pay a 50% non-refundable deposit to get 20 rooms at the downtown hotel I wanted at a very low rate. When I contacted this [unaffiliated housing] company with some change requests, they told me that my entire group had been moved to a hotel in the suburbs.”

Exhibitors serving food must arrange for suitable refuse containers to ensure that food is prepared and discarded under the most sanitary conditions possible. Please be advised that while carpet, whether exhibitor provided or ordered from the decorator, is installed clean, debris from set up and daily traffic may necessitate cleaning prior to Show opening and daily.

CRATE REMOVAL, STORAGE AND RETURN

Freeman provides removal, storage, and return of empty crates, boxes, and cartons. "Empty" stickers will be available at the Exhibitor Service Center. Crates and boxes displaying an "empty" sticker will be removed and stored until the close of the Exposition. At the close of the Show, the crates and boxes will be returned to your booth. Exhibitor must have a commercial general policy of no less than \$1,000,000 naming NACS and LVCVA as additional insured. This policy must be made available upon request.

The exhibitor and its authorized contractors agree to carry adequate personal and property damage liability and worker's compensation insurance and to indemnify and hold harmless NACS, Freeman, Sodexo Live! and LVCVA officers, agents and employees against all claims, losses, suits, damages, judgments, expenses, cost and charges of every kind, including attorneys' fees resulting from its occupancy of the exhibit space contract for, by reason of person injuries, death or property damages sustained by any person. Certificates of insurance must be furnished by the exhibitor if requested by NACS and must be available onsite during the show. Failure by NACS to request proof of insurance shall not relieve exhibitor from carrying proper coverage.

The exhibitor understands that neither NACS nor LVCVA maintains insurance covering the exhibitor's property and it is the sole responsibility of the exhibitor to obtain such insurance.

NACS and all organizations and individuals employed by or associated with the 2024 NACS Show will not be responsible for injury or damage that may occur to an exhibitor, his/her

employees or agents, nor to the safety of any exhibit or other property due to theft, fire, accident, or any other destructive causes.

NACS is not responsible for any theft of property. NACS and its employees or contractors assume no liability for loss or injury due to theft, fire, accident, or any other destructive causes. We strongly suggest that you obtain a rider to your existing insurance policy to protect your booth/product from the time it leaves your warehouse to the time it returns. Please also refer to the 2024 NACS Show Terms & Conditions (www.nacsshow.com/exhibitterms).

Many products on display at NACS are innovative, one-of-a-kind or prototype items. Exhibitors have the right to report to security any instance of inappropriate photographing of company products or displays.

PRIORITY POINTS PENALTIES

Please refer to the NACS Show Priority Point Penalty Assessment document found in the General Information section of this kit or www.nacsshow.com/prioritypoints.

SAMPLE (FOOD/BEVERAGE) DISTRIBUTION/PREPARATION/COOKING

All food/beverage samples being distributed must be manufactured or produced directly by the exhibitor. Before any samples can be distributed, you must notify Sodexo Live! and obtain their approval. The Sample Authorization Form is in the Facility Information & Order Forms section of the Exhibitor Service Kit.

For public safety, the Southern Nevada Health District (SNHD) in Las Vegas has very strict rules and requirements to govern the safe preparation and handling of open food and beverages. ***Hot water handwashing stations and workspace sanitizing stations are required in each booth providing opened samples.*** These policies have been in place in Las Vegas since 2010.

- View the [SNHD food booth safety checklist](#) (PDF)
- Additional details regarding the purchase of handwashing and sanitizing kits will be available in the exhibitor service kit in the Facility Information & Order Forms
- The Southern Nevada Health District considers the use of CBD oil in food to be an adulterant, which is prohibited.

Factory sealed samples are exempt from these regulations.

Distribution Tips

It is never easy to determine the quantities of sample products you should bring to the show. The NACS Exhibitor Advisory Committee and the NACS Exhibits Staff have developed some questions that you might want to ask yourself when determining sample quantities.

- How many attendees are expected to attend the show?
- At the 2023 NACS Show in Atlanta, there were about 24,000 total attendees.
- Why are you sampling? What is your overall objective?
- Who is your sampling audience?
- How are you going to sample?
- What are you sampling? Is it a give-away/take-away vs. an immediate consumption item?

Other items to consider:

- Location of your booth
- Who are your competitors and are they exhibiting at the Show?
- Are you engaging in other activities to bring traffic to your booth, i.e., a pre-show promotion?
- Is this a new item?

Housekeeping

Freeman housekeeping service cleans the aisles. It is up to the exhibitor to keep the exhibit booth clean. A porter service is available for special cleaning, and this service is recommended to all exhibitors sampling food and/or beverage items. You can order cleaning services by going to www.freemanco.com/store.

Leftover Food

After the Show closes, extra food products may be donated for distribution to a charitable organization. Information and procedures will be available on-site.

Public Health Officials

Food should be prepared under the most sanitary conditions. In the event you are contacted by a public health official, check with the floor manager immediately before acting on complaints or suggestions.

Trash Receptacles

Trash receptacles are positioned throughout the hall to keep the Show clean, not to replace an exhibitors' need for porter service in their booth. If you will need periodic porter service to remove trash from your booth, please contact Freeman.

Exhibitors found excessively using common area trash receptacles for booth-generated trash will be charged for porter service.

SECURITY

NACS will provide 24-hour perimeter security service from installation through dismantle. The furnishing of such service is not to be interpreted by exhibitors as guaranteeing them against theft or loss of any kind. Exhibitors are responsible for the security of their displays and personnel at all times. If you require additional security, please see the order form in the additional Services section.

Security Precautions:

Your company and NACS can be assured of a more secure and successful event if you follow a few simple precautions:

- Don't make your hi-tech equipment and perishable items easily identifiable. Mislabel/identify your packages or use a dark plastic to shrink wrap your materials, especially perishable items that can easily be identified as product for consumption. Don't make your product a temptation for laborers on the floor!
- Ship products, materials, equipment, etc. in locked trunks or crates. Make sure all labels are properly filled out on your trunks and crates that are shipped or to be stored.
- When utilizing cartons, be sure they are securely taped and/or banded. Do not mark on the outside of the crate what the contents are inside.
- Do not leave your booth unattended, particularly during move-in and move-out. Take inventory of your products during these times.
- Never leave laptops, briefcases, and purses unattended or out in the open.
- Keep small portable products out of sight, locked up or take them with you when you leave the exhibit hall.
- Utilize security cages or hire private booth security.
- Report any suspicious person(s) in the exhibit area.
- Report any thefts immediately to the Security Office and/or Show Management Office.
- Pack as quickly as possible at the close of the show. NEVER leave your booth unattended during this time – it is the highest risk period for theft.

SMOKING/VAPING

Smoking/Vaping IS NOT ALLOWED in the exhibit hall. Smoking/Vaping IS ALLOWED outside the building, provided that it takes place at least 25 feet from any entrance doors to the facility.

SHUTTLE BUS SERVICE

Complimentary shuttle bus service will be available to/from designated NACS official hotels during the NACS Show. Please refer to the [NACS Show hotel map](#) to determine which hotels are on the shuttle route. A complete shuttle schedule will be available on www.nacsshow.com in August.

2024 NACS SHOW MANAGEMENT RULES & REGULATIONS

Exhibitors agree to abide by the rules and regulations of Show Management by virtue of the signing of their Exhibit Space Application. See full details in NACS Show Terms & Conditions Section 3 (www.nacsshow.com/exhibitterms) Failure to do so may result in the loss of priority points and will affect your booth selection opportunities for future shows.

NACS will not be liable for consequential, incidental, indirect, special, or punitive damages, including without limitation any loss of revenue or profits arising in connection with the agreement, the terms and conditions, the application, and/or the 2024 exhibition, even if the exhibitor has been advised of the possibility of such damages.

8. Insurance

Exhibitors agree to maintain such insurance as will fully protect NACS and the Facility from any and all claims of any nature whatsoever, including damage to property, claims under the applicable Worker's Compensation Act, and claims for personal injury, including death, any or all of which may arise in connection with the installation, operation, or dismantlement of the exhibitor's display, or in connection with the display itself or with the exhibitor's participation in 2024 Exposition. Such coverage shall in no event be less than one million dollars (\$1,000,000). In addition to this, exhibitors must add to their existing insurance a portal-to-portal rider at a nominal cost, protecting them against loss/damage to their materials by fire, theft, accident, etc.

9. Appeal Procedure

- a. According to the provisions of Section 1 of this Agreement, Show Management shall review potential exhibitor applications to determine whether proposed exhibits qualify under this Agreement for exhibition at the 2024 Exposition.
- b. If, in its sole discretion, Show Management determines that a particular exhibit fails to qualify under the terms of this Agreement, NACS shall, within thirty (30) days of receipt of the application, notify the applicant by certified mail that the applicant's proposed exhibit has failed to qualify for the 2024 Exposition and that the application is, therefore, disapproved. Such notification shall also inform the applicant that the applicant may, by certified mail, within thirty (30) days of the date of the notification of disapproval, request a review of that disapproval by a review panel composed of non-supplier NACS members, none of whom may be a direct competitor with the applicant.
- c. An applicant shall include in its request for review by the review panel a written statement explaining why the applicant believes its proposed exhibit qualifies under the terms of this Agreement.
- d. If an applicant seeks review by the review panel of Show Management's disapproval, NACS shall notify the applicant of the review panel's decision within thirty (30) days of the receipt by NACS of the applicant's request for review by the review panel.
- e. An applicant may request expedited consideration of a request for review by the review panel by including in the request the reasons why the applicant believes such a review is necessary.

10. Dispute Resolution

- a. Any controversy or claim relating to the 2024 Exposition shall be settled in the courts of the Commonwealth of Virginia according to the laws and procedures of that jurisdiction. By applying for qualification for the 2024 Exposition, applicants agree to submit to the courts of the Commonwealth of Virginia.
- b. If any term of this Agreement is held by a court to be invalid, void, or unenforceable, the remaining terms and provisions of this Agreement shall retain their full force and effect and shall in no way be affected, invalidated, or impaired.

11. Construction

- a. Except as expressly provided or prohibited herein, this Agreement is binding upon the parties hereto and is also binding upon their successors or assigns; and the parties hereto agree for themselves and for their successors or assigns, to execute any instrument and to perform any act, that may be necessary or proper to effectuate the purpose of this Agreement.
- b. Exhibitor may not assign this Agreement or any of its rights hereunder without the prior written consent of NACS.
- c. The waiver or failure of either party to exercise in any respect any right provided for in this Agreement shall not be deemed a waiver of any further or future rights hereunder.
- d. The section captions and headings used in this Agreement are provided for convenience only and shall not be construed as limitations on the scope of this Agreement taken as a whole or on the particular sections to which the captions or headings refer.
- e. Words of any gender used in this Agreement shall be held to include any other gender, and words in the singular number shall be held to include the plural where the sense requires.
- f. All notices and other communications relating to this Agreement shall be in writing and shall be deemed to have been given, made and received only upon confirmation of receipt by a member of the NACS Exposition Team. - g. The application, this Agreement, and these terms and conditions constitute the entire agreement between us relating to the subject matter hereof and supersedes any prior understandings or agreements (whether oral or written) regarding the subject matter and may not be amended or modified except in writing.

HANGING SIGN APPROVAL PROCESS

All electrical and non-electrical hanging signs regardless of the weight must be hung by Freeman Services. All hanging signs need to be reviewed and approved by both NACS and Freeman by **August 9**, and are hung by Freeman.

In addition to Freeman, a copy of the following information should be sent to Anna Serfass at NACS:

- Hanging sign graphics, renderings or schematics (pictures/sketches)
- Hanging sign dimensions
- Total hanging sign weight

Send copies to:

HANGING/LIGHTING TRUSS GUIDELINES

Overhead truss with hanging signs or graphics must conform to the following guidelines. Truss may be rigged with hanging signage suspended below it to maximum height of 25 feet. No truss may exceed the outline of purchased exhibit space to hang over the public aisle space or display any graphics.

Maximum Hanging Sign/Graphic Height: 25 feet (from floor to top of signage)

Truss, signage, and fixtures are not allowed to be installed outside the boundaries of the exhibit space.

THEATRICAL/AUDIO VISUAL LIGHTING TRUSSES GUIDELINES

Theatrical and audio visual lighting trusses do not have hanging signage attached, and are used solely for theatrical lighting in the booth or audiovisual presentations. All lighting and speakers should be directed to the inner confines of the booth space and should not project onto other exhibitors or show aisles. Fixtures or lighting that rotate, spin, pulsate, or any other special effects should not interfere with neighboring exhibitors, or detract from the overall atmosphere of the show.

Maximum Theatrical/Lighting Truss Height: 30 feet

Minimum Theatrical/Lighting Truss Height: 24 feet

Truss, lighting, speakers, and fixtures are not allowed to be installed outside the boundaries of the exhibit space.

HANGING SIGNS & GRAPHICS (ISLAND & PENINSULA BOOTHS ONLY)

Hanging signs and graphics are permitted in all standard Peninsula and Island Booths, to a maximum height of twenty feet (25'). All should comply with ordinary use-of-space requirements (for example, the highest point of any sign should not exceed the maximum allowable height for the booth type). Hanging Signs & Graphics should be set back ten feet (10') from adjacent booths.

NACS Show Booth Display Guidelines

As an IAEE member, NACS has adopted the industry guidelines for our tradeshow as stated in this document.

The following *Guidelines for Display Rules and Regulations* have been established by the International Association of Exhibitions and Events™ (IAEE). *Guidelines for Display Rules and Regulations* are created to promote continuity and consistency among North American exhibitions and events. They are the model for most domestic exhibitions and events. It is recommended that exhibition organizers include a copy in the Exhibition Prospectus and/or Exhibitor Rules and Regulations.

This revised edition of IAEE's Guidelines for Display Rules and Regulations is offered as a resource for exhibitions and events organizers to use in creating consistent and fair exhibiting standards for their events. These Guidelines afford exhibitors a maximum return on their exhibit investments. Compliance with fire, safety, Americans with Disabilities Act (ADA), and other state, federal or provincial government requirements has also been addressed. However, always check with a local exhibition service contractor and the facility for local regulations.

It is IAEE's goal that the display rules and regulations, ultimately developed by each exhibitions and events organizer, shall provide exhibitors with all the information necessary to properly design and build exhibits, as well as plan their booth's layout and content. Show organizers should present the professional standards expected of exhibitors. Finally, they should assure all exhibitors, regardless of exhibit size or location, an environment conducive to successful interaction with their audiences.

IAEE is a global association that serves as the foremost authority on exhibitions and events management and operations.

Linear Booth

Linear Booths, also called “in-line” booths, are generally arranged in a straight line and have neighboring exhibitors on their immediate right and left, leaving only one side exposed to the aisle.

Dimensions

For purposes of consistency and ease of layout and/or reconfiguration, floor plan design in increments of 10ft (3.05m) has become the de facto standard in the United States. Therefore, unless constricted by space or other limitations, Linear Booths are most commonly 10ft (3.05m) wide and 10ft (3.05m) deep, i.e. 10ft by 10ft (3.05m by 3.05m). A maximum back wall height limitation of 8ft (2.44m) is generally specified.

Use of Space

Regardless of the number of Linear Booths utilized, e.g. 10ft by 20ft (3.05m by 6.10m), 10ft by 30ft (3.05m by 9.14m), 10ft by 40ft (3.05m by 12.19m), etc. display materials should be arranged in such a manner so as not to obstruct sight lines of neighboring exhibitors. The maximum height of 8ft (2.44m) is allowed only in the rear half of the booth space, with a 4ft (1.22m) height restriction imposed on all materials in the remaining space forward to the aisle. (See Line-of-Sight exception on page 8.) Note: When three or more Linear Booths are used in combination as a single exhibit space, the 4ft (1.22m) height limitation is applied only to that portion of exhibit space which is within 10ft (3.05m) of an adjoining booth.

Corner Booth

A Corner Booth is a Linear Booth at the end of a series of in-line booths with exposure to intersecting aisles on two sides. All other guidelines for Linear Booths apply.

Perimeter Booth

A Perimeter Booth is a Linear Booth that backs to an outside wall of the exhibit facility rather than to another exhibit.

Dimensions and Use of Space

All guidelines for Linear Booths apply to Perimeter Booths except that the typical maximum back wall height is 12ft (3.66m).

Peninsula Booth

A Peninsula Booth is exposed to aisles on three sides, and comprised of a minimum of four booths. There are two types of Peninsula Booths: (a) one which backs to Linear Booths, and (b) one which backs to another Peninsula Booth and is referred to as a “Split Island Booth.”

Dimensions

A Peninsula Booth is usually 20ft by 20ft (6.10m by 6.10m) or larger. When a Peninsula Booth backs up to two Linear Booths, the back wall is restricted to 4ft (1.22m) high within 5ft (1.52m) of each aisle, permitting adequate line of sight for the adjoining Linear Booths. (See Line-of-Sight exception on page 8.) A typical maximum height range allowance is 16ft to 20ft (4.88m to 6.10m), including signage for the center portion of the back wall. Double-sided signs, logos and graphics shall be set back ten feet (10') (3.05m) from adjacent booths.

Split Island Booth

A Split Island Booth is a Peninsula Booth which shares a common back wall with another Peninsula Booth. The entire cubic content of this booth may be used, up to the maximum allowable height, without any back wall Line-of-Sight restrictions. The maximum height range allowance is 20ft (6.10m) for booth structure. If your backwall exceeds 8' the backside must be clean and free of any logos or graphics. Any hanging signs, logos and graphics shall be set back ten feet (10') (3.05m) from adjacent booths.

SPLIT ISLAND BOOTH

Island Booth

An Island Booth is any size booth exposed to aisles on all four sides.

Dimensions

An Island Booth is typically 20ft by 20ft (6.10m by 6.10m) or larger, although it may be configured differently.

Use of Space

The entire cubic content of the space may be used up to the maximum allowable height, which is 20ft (6.10m) for booth structure, overhead signage may be rigged to a maximum 25 ft (measured from top of sign to floor).

Extended Header Booth 20ft (6.10m) or Longer

An Extended Header Booth is a Linear Booth 20ft (6.10m) or longer with a center extended header.

Dimensions and Use of Space

All guidelines for Linear Booths apply to Extended Header Booths, except that the center extended header has a maximum height of 8ft (2.44m), a maximum width of 20 percent of the length of the booth, and a maximum depth of 9ft (2.7m) from the back wall.

Other Important Considerations

Canopies and Ceilings

Canopies, including ceilings, umbrellas and canopy frames, can be either decorative or functional (such as to shade computer monitors from ambient light or to allow for hanging products). Canopies for Linear or Perimeter Booths should comply with Line-of-Sight requirements. (See “Use of Space” for Linear or Perimeter Booths).

The bottom of the canopy should not be lower than 7ft (2.13m) from the floor within 5ft (1.52m) of any aisle. Canopy supports should be no wider than three inches 3in (.08m). This applies to any booth configuration that has a sight line restriction, such as a Linear Booth. Fire and safety regulations in many facilities strictly govern the use of canopies, ceilings and other similar coverings. Check with the appropriate local agencies prior to determining specific exhibition rules.

Hanging Signs & Graphics

Most exhibitions and events rules allow for Hanging Signs and Graphics in all standard Peninsula and Island Booths, with a maximum height of 25ft (7.62m) from the top of the sign. The distance is measured from the floor to the top of the sign. Whether suspended from above, or supported from below, they should comply with all ordinary use-of-space requirements. For example, the highest point of any sign should not exceed the maximum allowable height for the booth type.

Hanging Signs and Graphics should be set back 10ft (3.05m) from adjacent booths and be directly over contracted space only.

Approval for the use of Hanging Signs and Graphics, at any height, should be received from the exhibitions or events organizer at least 60 days prior to installation. Variances may be issued at the exhibitions or events management's discretion. Drawings should be available for inspection.

Towers

A Tower is a free-standing exhibit component separate from the main exhibit fixture. The height restriction is the same as that which applies to the appropriate exhibit space configuration being used.

Towers in excess of 8ft (2.44m) should have drawings available for inspection. Fire and safety regulations in many facilities strictly govern the use of Towers. A building permit or safety lines may be required.

Multi-story Exhibit

A Multi-story Exhibit is a booth where the display fixture includes two or more levels. In many cities, a Multi-story Exhibit requires prior approval by the exhibit facility, and/or relevant local government agency, as well as show management because it is deemed to be a “structure” for building purposes. The city building department generally needs to issue a building permit based on an application and drawings prepared and submitted by a licensed architect or engineer. Exhibitors should obtain local building regulations early on to ensure that all time constraints are met. Exhibitions and events organizers should be prepared to assist exhibitors in this application process.

Issues Common To All Booth Types

Americans with Disabilities Act (ADA)

All exhibiting companies are required to be in compliance with the Americans with Disabilities Act (ADA), and are encouraged to be sensitive, and as reasonably accommodating as possible, to attendees with disabilities. Information regarding ADA compliance is available from the U.S. Department of Justice ADA Information Line (800) 514-0301, and from the ADA website at www.ada.gov. Some examples of how to design an exhibit for ADA compliance:

- Make exhibits wheelchair accessible by ramping raised exhibit flooring without extending a ramp into the aisle. Note: a standard wheelchair ramp should have a grade no steeper than 1:12. This means that for every inch of rise (change in height), there should be 12 inches of run (change in length)
- Ramp the entry or use hydraulic lifts to trailer exhibits
- Avoid double-padded plush carpet to ease mobility device navigation
- Provide the same attendee experience on both levels of a two-story exhibit
- Offer a signer or other auxiliary hearing-impaired apparatus for sound presentations or have a printed copy of the presentation available
- Run an audio presentation for people with sight problems
- Arrange touch screen displays at a height to accommodate a person sitting in a wheelchair

To avoid heavy fines by the U. S. Department of Justice, exhibitors must adhere to the ADA rules. Exhibits are not exempt from ADA compliance.

Structural Integrity

All exhibit displays should be designed and erected in a manner that will withstand normal contact or vibration caused by neighboring exhibitors, hall laborers, or installation/dismantling equipment, such as fork lifts. Displays should also be able to withstand moderate wind effects that may occur in the exhibit hall when freight doors are open. Refer to local building codes that regulate temporary structures.

It is recommended that all 20ft by 20ft (6.10m by 6.10m) and over exhibits require a drawing, plans or renderings, preferably digital, to be submitted to the show organizer, and to the show's general service contractor.

Exhibitors should ensure that any display fixtures such as tables, racks, or shelves are designed and installed properly to support the product or marketing materials to be displayed.

Flammable and Toxic Materials

All materials used in display construction or decorating should be made of fire retardant materials and be certified as flame retardant. Samples should also be available for testing. Materials that cannot be treated to meet the requirements should not be used. A flame-proofing certificate should be available for inspection. Exhibitors should be aware of local regulations regarding fire/safety and environment which must be adhered to.

Exhibitors should dispose of any waste products they generate during the exhibition in accordance with guidelines established by the Environmental Protection Agency and the facility.

Storage

Fire regulations in most exhibit facilities prohibit storing product, literature, empty packing containers, or packing materials behind back drapes or under draped tables. In most cases, however, exhibitors may store a limited supply of literature or product appropriately within the booth area, so long as these items do not impede access to utility services, create a safety problem, or look unsightly.

Issues Common To All Booth Types *(continued)*

Electrical

Every exhibit facility has different electrical requirements. However, minimum guidelines are suggested:

- All 110-volt wiring should be grounded three-wire.
- Wiring that touches the floor should be “SO” cord (minimum 14-gauge/three-wire) flat cord, which is insulated to qualify for “extra hard usage.”
- Cord wiring above floor level can be “SJ” which is rated for “hard usage.”
- Using zip cords, two-wire cords, latex cords, plastic cords, lamp cords, open clip sockets, and two-wire clamp-on fixtures is not recommended and is often prohibited. Cube taps should be prohibited.
- Power strips (multi-plug connectors) should be UL approved, with built-in over-load surge protectors.

Lighting

Exhibitors should adhere to the following suggested minimum guidelines when determining booth lighting:

- No lighting, fixtures, lighting trusses, or overhead lighting are allowed outside the boundaries of the exhibit space. Exhibitors intending to use hanging light systems should submit drawings to exhibition management for approval.
- Lighting, including gobos, should be directed to the inner confines of the booth space. Lighting should not project onto other exhibits or exhibition aisles.
- Lighting that is potentially harmful, such as lasers, ultraviolet lights or flashing or strobe lights that can trigger photosensitive epilepsy should comply with facility rules and be approved in writing by exhibition management.
- Lighting that spins, rotates, pulsates, and other specialized lighting effects should be in good taste and not interfere with neighboring exhibitors or otherwise detract from the general atmosphere of the event.
- LED lights can be very bright yet generally generate less heat.
- Currently, some convention facilities are not allowing certain types of quartz halogen lighting fixtures in exhibits due to potential fire hazards. Check with exhibition management.
- Reduced lighting for theater areas should be approved by the exhibition organizer, the utility provider, and the exhibit facility.

Demonstrations

As a matter of safety and courtesy to others, exhibitors should conduct sales presentations and product demonstrations in a manner which assures all exhibitor personnel and attendees are within the contracted exhibit space and not encroaching on the aisle or neighboring exhibits. It is the responsibility of each exhibitor to arrange displays, product presentation, audio visual presentations, and demonstration areas to ensure compliance. Exhibitors should be aware of local regulations regarding fire/safety and environment which must be adhered to.

Special caution should be taken when demonstrating machinery or equipment that has moving parts, cooking equipment with an open flame, or any product that is otherwise potentially dangerous. Exhibitors should establish a minimum setback of 3ft (.91m) and/or install hazard barriers as necessary to prevent accidental injury to spectators. Additionally, demonstrations should only be conducted by qualified personnel.

Issues Common To All Booth Types *(continued)*

Sound/Music

In general, exhibitors may use sound equipment in their booths so long as the noise level does not disrupt the activities of neighboring exhibitors. Speakers and other sound devices should be positioned so as to direct sound into the booth rather than into the aisle. Rule of thumb: Sound and noise should not exceed 85 decibels when measured from the aisle immediately in front of a booth. (Refer to OSHA at www.osha.gov for more information.)

Exhibitors should be aware that music played in their booths, whether live or recorded, may be subject to laws governing the use of copyrighted compositions. ASCAP, BMI, and SESAC are three authorized licensing organizations that collect copyright fees on behalf of composers and publishers of music.

Vehicles

Vehicles: Rules vary depending on the facility, but generally it is required that vehicles on display have no more than one fourth tank of gas. The filler cap should be sealed and the batteries disconnected. External chargers are usually recommended for demonstration purposes. Keys should always be surrendered to show management while participating in an exhibition or event.

NACS SHOW - PRIORITY POINT PENALTY ASSESSMENTS

BACKGROUND

In response to exhibitor feedback on the NACS Show booth selection process, NACS and PEI members will now be eligible to select booth space based on priority points. Points were calculated based on NACS and/or PEI membership and exhibitor engagement since 2004. The intent and purpose of the new system is to reward loyal exhibitors and members of both organizations with weighted emphasis on membership and tradeshow participation.

To maintain the integrity of the NACS Show and its exhibitors point penalties will be assessed to any companies that violate the NACS Show Terms & Conditions.

Early Tear Down/Unstaffed Booth

Failure to staff the booth during show hours or to dismantle prior to published tear down hours will be subject to penalties. There will be no exceptions to this rule. Exhibitors will be notified in person and via email if the penalty is assessed. Activities include:

1. Early dismantle of booth during show hours. (i.e. packing boxes/crates, removing booth materials)
 2. Booth not staffed by booth personnel or designated contractors during all show hours.
- **Penalty: Full deduction of all points earned for the event** (5 points for participation, plus 1-3 points for booth size) – maximum value 8 points

Show Rules Violations

Note: Penalties will be assessed to the primary exhibitor (contract holder) for any violations made by their representatives, secondary exhibitors, or contractors.

1. *Display Guidelines* – violations that are not or cannot be remedied onsite (i.e. late set-up, excessive display height and space restrictions)
 - **Penalty: 1 pt for each violation accompanied by a written citation**
2. *Exhibitor Conduct* – Failure to adhere to exhibitor conduct policies as outlined in the rules and regulations (i.e. marketing/soliciting outside of booth, excessive noise)
 - **Penalty: 1 pt for each violation accompanied by a written citation**

Default of Occupancy (No Show)

Exhibitors failing to occupy contracted space are not relieved of obligation to pay full space rental fees. Exhibition Management has the right to claim any space not occupied by 5:00 p.m. on Monday, October 7, 2024 and to reassign or use such space in any way without releasing original Exhibitor from his contracted obligations.

- **Penalty: Full deduction of all points earned for the event** (5 points for participation, plus 1-3 points for booth size) – maximum value 8 points

Misuse of Exhibitor Badges

Badges should not be used to register customers or clients for security and liability reasons. All recipients of exhibitor badges must be employees or agents of the exhibiting company. Exhibitors found in violation will receive a written booth violation notice. The policy has been reviewed and approved by NACS and the Exhibitor Advisory Committee (February 2016).

- **Penalty: Full deduction of all points earned for the event** (5 points for participation, plus 1-3 points for booth size) – maximum value 8 points

NACS Primary Exhibitor Contract Addendum

WHEREAS, the National Association of Convenience Stores ("NACS"), an Alexandria, Virginia corporation, is sponsoring the 2024 NACS Show in Las Vegas, Nevada on October 8-10, 2024, and for consideration has provided exhibit space for companies to display their products and/or services; and

WHEREAS, _____ (the "Primary Exhibitor") has agreed to the terms and conditions of the 2024 NACS Show, as attested in a signed agreement between NACS and the Primary Exhibitor; and

WHEREAS, per the terms and conditions of that agreement [§3(e)(6)], the Primary Exhibitor may not sublet, assign, sell, or allow to be used all or any part of the exhibit space allotted it, without prior NACS approval; and

WHEREAS, NACS will not permit a third party (the "Secondary Exhibitor") to use all or any part of the Primary Exhibitor's exhibit space without the Primary Exhibitor's first reading and agreeing to this Primary Exhibitor Contract Addendum and only the Primary Exhibitor earns the priority points, the Secondary Exhibitor does not receive priority points for participating;

THEREFORE, the Primary Exhibitor and NACS agree that NACS shall not be responsible for any defect or change of condition in the Primary Exhibitor's exhibit space, or for any damage thereto, or to any person, or to goods or things contained therein due to the act or negligence of a "Secondary Exhibitor" sharing Primary Exhibitor's exhibit space, except for defects or damages directly due to an act or negligence on the part of NACS. Furthermore, the Primary Exhibitor and NACS agree that the Primary Exhibitor shall indemnify NACS for all claims, demands, and actions arising in connection with a Secondary Exhibitor's use of the Primary Exhibitor's assigned exhibit space.

Secondary Exhibitor Benefits –

These benefits are provided to Secondary Exhibitors who are current members, or those that choose to pay the \$1,350 listing fee:

- Company listing in the print and online NACS Show directories;
- Ability to have their company name printed on their badges (the Primary will assign an allotment of their badges to their Secondary);
- Ability to rent meeting space (Business Appointment Centers);
- Ability to participate in exclusive exhibitor NACS Show Marketing Opportunities such as the Cool New Products Preview Room.
- Ability to purchase pre- and post-show attendee lists;
- One year of NACS Supplier Membership (included in the listing fee).

Secondary Exhibitor Badge Registration –

- The Primary must designate the booth personnel badge allotment for their paid/member Secondary companies. The attached Primary and Secondary Company Badge Allotments needs to be completed to show the complete breakdown of the complimentary badges. The Secondary contact will receive an e-mail from NACS to register their personnel online shortly thereafter.
- If a Secondary company *is not a member and does not pay the listing fee*, their badge name will default to the Primary exhibitor name and cannot be changed. This badge will also be taken from the Primary exhibitor's complimentary badge allotment. As a "silent secondary" these companies can work in the booth under the Primary name only and cannot have recognition in any printed materials or badges.

Attached are the necessary forms for Primary and Secondary companies. **Please do your best to submit all the paperwork at one time!**

Primary Exhibitors should complete the following forms:

- NACS Primary Exhibitor Contract Addendum
- Primary and Secondary Company Badge Allotments

Whether it's a casual brunch, an elegant sit-down dinner or a reception featuring vibrant international cuisine, our culinarians will use only the finest and freshest ingredients to create a truly extraordinary dining experience for you and your guests.

Count on your dedicated Catering Sales Professional to assist you in your pre-planning activities and communicate your goals to our operations team. Together, we will execute all services to your delight and satisfaction.

EXCLUSIVITY

We maintain the exclusive right to provide all food and beverage in the Las Vegas Convention Center and Visitors Authority. All food and beverages, including water, must be purchased from us.

FOOD AND BEVERAGE PRICING

A good faith estimate of food and beverage prices will be provided six (6) months in advance of the Event's start date and will be confirmed at the signing of the Agreement. However, certain environmental factors may affect pricing such as the Nevada drought. Prices are based on current market availability and cost, which fluctuate and are subject to change. Your catering manager will work with you to make product substitutions due to any of the above listed scenarios, or any other scenario which dramatically affects the price of the food and beverage for the event.

SERVICE CHARGES AND TAX

A 19% service charge will apply to all food and beverage charges. Current state and local sales taxes apply to all food, beverage, labor charges, equipment rentals and service charges, and are subject to applicable tax laws and regulations.

A service charge of 19% is added to your bill for this catered event/function (or comparable service). 90% of the total amount of this service charge is distributed to the employees providing the service as a gratuity. You are free, but not obligated, to add or give an additional gratuity directly to your servers.

If the customer is an entity claiming exemption from taxation in the state where the facility is located, the customer must deliver to us satisfactory evidence of such exemption 30 days prior to the event in order to be relieved of its obligation to pay state and local sales taxes.

PAYMENT POLICY

One hundred percent (100%) of the projected payment for the Event shall be paid at least thirty (30) days prior the Event.

The balance and any additional charges incurred during the event, is required within 15 days following receipt of the final invoice. We will begin to accrue 1.5% interests from the date of the invoice if not paid within 15 days. Additionally, any costs of collection and enforcement of the contracted services will be the responsibility of the customer. The preferred method of payment is by wire transfer or company check. In addition, we require a credit card on file for all onsite orders and additional charges.

For social events (non-convention related), a 50% deposit is required upon signing the contract. An additional deposit of 50% of the total estimated food and beverage is required 45 days in advance of the move in initial date. No less than 10 days prior to move in date for the event, present either Cashier's Check or Credit Card for back up. Any additional charges incurred during the function will be charged to the credit card upon event end date.
