IMPORTANT SHIPPING INFORMATION

General Information

- Rates above apply to machinery with proper lifting bars, points, hooks, or machinery that is skidded or crated which may be moved on or off the loading dock, vehicle or show floor by a forklift with NO special handling required. Forklift lifting points must be clearly marked. This does not apply to display materials.
- If it is necessary to unskid the machine before removing it from the container, labor and equipment charges will be added to the stated rates. **Please refer to the "Forklift & Rigging Labor Order Form"**.
- Certified weight tickets are required. Separate weight for display materials and machinery equipment are required. If the weight is not separated and/or materials are not identified properly, the Material Handling rate will prevail.
- Freeman retains the right to determine whether or not the materials qualify for the machine rate.
- Machinery will be spotted with a 6" tolerance one time after removal from the truck, provided the following conditions are met:
 1. The exhibitor, or his representative, must be present to supervise the spotting.
 2. The area within the booth is clearly marked to indicate the machine's position.
 3. No rigging, bolting or unbolting, un-skidding or attaching to other equipment must be performed.
 4. Shipment is received at the designated time on your target date (refer to the Target Floor Plan).
