

MATERIAL HANDLING

Let FreemanOnline® estimate your material handling charges for you. Log on to www.freeman.com/store select your show and click on "Estimate My Material Handling Costs". From FreemanOnline® you can print extra shipping labels, get tips on how to package your freight and much more.

MATERIAL HANDLING SERVICES

- CRATED:** Material that is skidded or is in any type of shipping container that can be unloaded at the dock with no additional handling required.
- SPECIAL HANDLING:** Material delivered in such a manner that it requires additional handling, such as ground unloading, stacked or constricted space unloading, designated piece unloading, shipment integrity, alternate delivery location, loads mixed with pad wrapped material, no documentation and shipments that require additional time, equipment or labor to unload. **Federal Express, UPS & DHL** are included in this category due to their delivery procedures.
(See definitions page 3)
- STRAIGHT TIME:** 8:00 AM to 5:00 PM Monday through Friday
- OVERTIME:** 5:00 PM to 8:00 AM Monday through Friday, all day Saturday, Sunday, and Holidays
(Overtime will be applied to all freight received at the warehouse and/or show site that must be moved into or out of booth during above listed times.)
- OUTBOUND:** Submit your outbound shipping information in advance and we will deliver your paperwork to your booth during the show. If no outbound information is submitted, Freeman reserves the right to return the freight back to the company address on file at the exhibitor's expense.

60,001 lbs and above.....	\$ 26.00

material handling

SPECIAL HANDLING DEFINITIONS

For frequently asked questions and material handling estimator tools, go to www.freeman.com/store.

Special handling applies to shipments that are loaded by cubic space and/or packed in such a manner as to require additional labor/handling, such as ground unloading, constricted space unloading, designated piece unloading, carpet/pad only shipments or stacked shipments. Also included are shipment integrity, alternate delivery locations, mixed shipments, and shipments without individual bills of lading. Shipments loaded in this manner require additional time, labor, or equipment, to unload, sort and deliver.

What is Ground Loading/Unloading?

Vehicles that are not dock height, preventing the use of loading docks, such as U-hauls, flat bed trailers, double drop trailers, company vehicles with trailers that are not dock level, etc.

What is Constricted Space Loading/Unloading?

Trailer loaded “high and tight” shipments that are not easily accessible. Freight is loaded to full capacity of trailer – top to bottom, side to side. One example of this is freight that is loaded down one side of a trailer that must be bypassed to reach targeted freight.

What is Designated Piece Loading/Unloading?

Drivers that require the loading crew to bring multiple pieces of the freight to the rear of the trailer to select the next piece, having to remove freight from the trailer then reload to fit or the trailer must be loaded in a sequence to ensure all items fit.

What are Stacked Shipments?

Shipments loaded in such a manner requiring multiple items to be removed to ground level for delivery to booth. Stacked or “cubed out” shipments, loose items placed on top of crates and/or pallets constitute special handling.

What is Shipment Integrity?

Shipment integrity involves shipments on a carrier that are intermingled, or delivered in such a manner that additional labor is needed to sort through and separate the various shipments on a truck for delivery to our customers.

What is Alternate Delivery Location?

Alternative delivery location refers to shipments that are delivered by a carrier that requires us to deliver some shipments to different levels in the same building, or to other buildings in the same facility.

What are Mixed Shipments?

Mixed shipments are defined as shipments of mixed crated and uncrated goods, where the percentage of uncrated is minimal and does not warrant the full uncrated rate for the shipment, but does require special handling. Freeman defines special handling for mixed loads as having less than 50% of the volume as uncrated.

What does it mean if I have “No Documentation”?

Shipments arrive from a small package carrier (including, among others, Federal Express, UPS, & DHL) without an individual Bill of Lading, requiring additional time, labor and equipment to process.

What is the difference between Crated and Uncrated Shipments?

Crated shipments are those that are packed in any type of shipping container that can be unloaded at the dock with no additional handling required. Such containers include crates, fiber cases, cartons, and properly packed skids. An uncrated shipment is material that is shipped loose or pad-wrapped, and/or unskidded without proper lifting points.

What about carpet only shipments?

Shipments that consist of loose carpet and/or carpet padding only require additional labor and equipment to unload.
